

Apply for a commercial evaluation authorisation

IMPORTANT INFORMATION

- Use this form to apply for a commercial evaluation authorisation under section 53 of the Industrial Chemicals Act 2019 (IC Act).
- You can submit a joint application, but we can't process the application until all applicants submit their own form. For instructions on how to submit a joint application, send an email to applications@industrialchemicals.gov.au.
- You can upload up to 5 attachments with your application in AICIS Business Services. If you have more than 5 attachments, you can email the additional attachments to applications@industrialchemicals.gov.au.
- The **applicant must submit this form** through AICIS Business Services. An agent cannot submit this form on behalf of the applicant.
- Giving false or misleading information is a serious offence. We may pass on the information in this form to other agencies as authorised or required by law.
- Your personal details are protected by law, including the Privacy Act 1988. Important information about how we handle your personal details is in our privacy statement at www.industrialchemicals.gov.au/privacy. You should read and understand this information before completing this form.

Please allow 20 working days for processing. Use BLOCK LETTERS.

Section 1: Applicant's details

Business name:

AICIS Business ID:

Application contact — first name:

Application contact — last name:

Is this a joint application?

Yes, and I understand that each applicant must submit their own signed form.

No

Is this a complete application or will the chemical data provider submit certain information separately?

Yes, this is a complete application.

No, this is not a complete application and the chemical data provider will submit certain information separately.

AICIS Business ID of chemical data provider (if applicable):

Note: We cannot process your application until we have a complete application.

Has payment been made through AICIS Business Services? (required)

Yes

No*

* We cannot process this application until we receive payment.

Section 2: Confidential Business Information (CBI)

2a. Are you applying for the chemical name to be considered as confidential business information (CBI)?

- Yes, and I understand that this application is not complete until an application for CBI has been submitted through AICIS Business Services. No

2b. Are you applying for the end use to be considered as confidential business information (CBI)?

- Yes, and I understand that this application is not complete until an application for CBI has been submitted through AICIS Business Services. No

2c. Are you flagging any other information as CBI? (If your answer is 'yes', you must answer questions d, e and f of this section.)

- Yes, and I understand that if the nominated person receives a section 113 notice (IC Act) then they may need to apply for CBI through AICIS Business Services. No — go to section 3

2d. What specific information do you want to flag as CBI?

2e. Nominate the person who should receive the section 113 notice:

First name	Last name
------------	-----------

2f. Nominated person's AICIS Business ID:

Section 3: Chemical details

3a. Provide the name(s) you use to refer to your chemical:

3b. Provide the proper name (CAS or IUPAC) for your chemical:

- The chemical data provider will submit the proper name (CAS or IUPAC) for the chemical separately.

3c. Provide the CAS number (if assigned) for your chemical:

- The chemical data provider will submit the CAS number (if assigned) for the chemical separately.

3d. Provide the UVCB substance description (if applicable):

- The chemical data provider will submit the UVCB substance description (if applicable) for the chemical separately.

3e. Provide the structural formula for your chemical:

- I will upload an attachment with the structural formula.

- The chemical data provider will submit the structural formula for the chemical separately.

3f. Provide the molecular weight or molecular weight range:

The chemical data provider will submit the molecular weight or molecular weight range for the chemical separately.

3g. Is your chemical a GM product or does it contain a GM product?

Yes

No

3h. If your chemical is introduced as a solid or in a dispersion, is it known to consist of particles in an unbound state or as an aggregate or agglomerate — at least 50% (by number size distribution) of which have at least one external dimension in the nanoscale (1-100 nm)?

Yes

No

Section 4: Introduction and end use details

4a. Is your chemical imported from overseas or manufactured in Australia?

Imported from overseas

Manufactured in Australia

4b. Provide the concentration of your chemical at introduction: %

The chemical data provider will submit the concentration of the chemical at introduction separately.

4c. What is the proposed end use for your chemical?

4d. What is the purpose of the commercial evaluation?

4e. How long do you need to introduce your chemical for the purposes of commercial evaluation? Note: the authorisation period cannot exceed 4 years.

4f. What is the volume of the chemical needed to conduct your commercial evaluation over the evaluation period? Note: the amount cannot exceed 10 tonnes over the period for which the authorisation will be in force.

4g. Provide details of how you will conduct the evaluation, such as a description or plan for the evaluation and any trials that will take place. You can upload documents with figures to support your description.

I will upload an attachment.

4h. Provide details of all sites where the chemical will be handled — including any manufacturing, distribution, repackaging or formulation sites, sites where the commercial evaluation will occur and any other relevant facilities such as licensed waste disposal contractors.

Business name	Site location	Concentration(s) of chemical handled at that site	Describe any activities involving the chemical at that site	Describe the control measures that will be used to reduce the exposure of workers and the environment to the chemical at that site

4i. Will you introduce more than 1 tonne of your chemical over any 1-year period while the authorisation is in force?

Yes, and I will provide further details below

No

If yes, provide further details regarding the location and timeframes for any release. For example, noting if your chemical will be predominantly released to a single sewage system, and the timeframe (weeks/months/years) for when the release will occur:

Section 5: Hazard information

5a. Is there any known hazard classification for your chemical?

Yes, and I will provide further details below

No

Note: the hazard classification should be associated with the chemical itself and not, for example, with other chemicals that are introduced or used in combination with your chemical.

If yes, provide the hazard classification for your chemical:

5b. Do you have access to any toxicological or ecotoxicological study reports for your chemical? Note: the introducer doesn't need to hold the reports, but must be able to provide them on request.

Yes, and I will provide further details in the table below

No

Test substance (eg, chemical, suitable analogue)	Applicable OECD test guideline	Year study was conducted

Section 6: Safety data sheet

Upload a safety data sheet for the chemical itself and/or the chemical as introduced.

Attachment uploaded

Section 7: Declaration (required)

I declare that:

The introduction of the chemical will be for the purpose of ascertaining the chemical's potential for commercial application.

The introduction or use of the chemical will not involve:

- making the industrial chemical available to the public on its own, in combination with one or more other industrial chemicals, or as part of the article types specified in subsection 18(1)(c) of the Industrial Chemicals (General) Rules 2019
- releasing the chemical into the environment without prior treatment
- uncontrolled use in any workplace

A commercial evaluation authorisation is not currently held, or has been previously held, for this chemical and end use. Another application for a commercial evaluation authorisation for this chemical and end use has not been submitted that is yet to be decided or withdrawn.

I am the owner of the data provided in this application, or I have permission from the data owner to use the data that I am submitting for this application.
