

Draft evaluations - have your say - closes 27 May 2024

What is this about?

We have published **14** draft evaluation statements on industrial chemicals and welcome your comments.

Download evaluation statements and have your say

AICIS business ID (if you have one)

Which draft evaluations would you like to comment on?

First read our [draft evaluations](#), then select which ones you wish to comment on.

Select at least one

- | | |
|---|---|
| <input type="checkbox"/> Water-soluble zinc salts - EVA00105 | <input type="checkbox"/> Medium and long chain alkyl sulfates - EVA00146 |
| <input type="checkbox"/> 2-Ethylhexyl phosphates - EVA00126 | <input type="checkbox"/> Salicylic acid and its salts - EVA00150 |
| <input type="checkbox"/> Acrylates and methacrylates based on bisphenol A (BPA) - EVA00130 | <input type="checkbox"/> Hexamine and related chemicals - EVA00154 |
| <input type="checkbox"/> Alkoxysilane ethylenediamine and polyamine derivatives - EVA00131 | <input type="checkbox"/> Chemicals that are unlikely to require further regulation to manage risks to environment - EVA00155 |
| <input type="checkbox"/> Benzenesulfonic acid, dodecyl-, compound with 4,4-dimethyloxazolidine (1:1) - EVA00135 | <input type="checkbox"/> Chemicals that are unlikely to require further regulation to manage risks to human health - EVA00156 |
| <input type="checkbox"/> Benzoic acid, 2-hydroxy-, methyl ester (methyl salicylate) - EVA00136 | <input type="checkbox"/> Chemicals not considered for in depth evaluation – Not commercially active in Australia - EVA00157 |
| <input type="checkbox"/> Cyanoacrylates - EVA00141 | |
| <input type="checkbox"/> Environmental fate and effects of zinc ions - EVA00143 | |

Your comments on exposure information

With reference to the evaluation name, tell us your comments on exposure information.

Your comments on hazard information

With reference to the evaluation name, tell us your comments on hazard information.

Any other comments

*With reference to the evaluation name, tell us your comments on the evaluations that **don't** relate to exposure or hazard information.*

Do you want to provide feedback by uploading a file (for example, PDF or Word document)?

- Yes
- No

List of draft evaluations open for public comment until 27 May 2024

Note: Use the scroll bar located at the bottom of the table if you're viewing on a smaller screen or mobile device.

Subject of evaluation	Focus	Use	Outcome	Download evaluation
2-Ethylhexyl phosphates	Environment	Adhesive and sealants; Chemicals used in construction not covered by other end uses; Cleaning and furniture care products; Electronic products; Fabric, textile and leather products not covered by other end uses; Ink, toner and colourant products; Lubricants and greases; Other; Paints and coatings; Paper products; Photographic products; Plastic and polymer products	Proposal to vary terms of the inventory	EVA00126
Acrylates and methacrylates based on bisphenol A (BPA)	Health	Adhesive and sealants; Chemical intermediate; Chemicals used in construction not covered by other end uses; Electronic products; Ink, toner and colourant products; Lubricants and greases; Other; Paints and coatings; Personal care products - limited environmental release; Plastic and polymer products; Water treatment products	Recommendation to regulatory body (public health); Recommendation to regulatory body (workers); Information relating to safe introduction and use	EVA00130
Alkoxysilane ethylenediamine and polyamine derivatives	Health	Adhesive and sealants; Chemicals used in construction not covered by other end uses; Chemical intermediate; Fabric, textile and leather products not covered by other end uses; Ink, toner and colourants; Paints and coatings; Plastic and polymer products	Recommendation to regulatory body (workers); Information relating to safe introduction and use	EVA00131

Subject of evaluation	Focus	Use	Outcome	Download evaluation
Benzenesulfonic acid, dodecyl-, compound with 4,4-dimethyloxazolidine (1:1)	Health	Cleaning and furniture care products; Fabric, textile and leather products not covered by other end uses; Laundry and dishwashing products; Paints and coatings; Personal care products not covered by other end uses	Recommendation to regulatory body (workers); Information relating to safe introduction and use	EVA00135
Benzoic acid, 2-hydroxy-, methyl ester (methyl salicylate)	Health	Air care products; Cleaning and furniture care products; Personal care products not covered by other end uses Air care products; Cleaning and furniture care products; Personal care products not covered by other end uses	Recommendation to regulatory body (workers); Information relating to safe introduction and use	EVA00136
Chemicals not considered for in depth evaluation – Not commercially active in Australia	Health and Environment	Various	No new means of managing risk are proposed	EVA00157
Chemicals that are unlikely to require further regulation to manage risks to environment	Environment	Various	No new means of managing risk are proposed	EVA00155
Chemicals that are unlikely to require further regulation to manage risks to human health	Health	Various	No new means of managing risk are proposed	EVA00156
Cyanoacrylates	Health	Adhesive and sealants; Arts, crafts and hobby materials; Chemical intermediate; Personal care products - limited environmental release	Recommendation to regulatory body (public health); Recommendation to regulatory body (workers); Information relating to safe introduction and use	EVA00141

Subject of evaluation	Focus	Use	Outcome	Download evaluation
Environmental fate and effects of zinc ions	Environment	Chemical intermediate; Chemicals used in construction not covered by other end uses; Chemicals used in extractive industries not covered by other end uses; Electronic products; Fabric, textile and leather products not covered by other end uses; Lubricants and greases; Other; Paints and coatings; Personal care products not covered by other end uses	No new means of managing risk are proposed	EVA00143
Hexamine and related chemicals	Environment	Adhesive and sealants; Chemicals used in construction not covered by other end uses; Fabric, textile and leather products not covered by other end uses; Ink, toner and colourant products; Laundry and dishwashing products; Lubricants and greases; Other; Paints and coatings; Paper products; Personal care products not covered by other end uses; Plastic and polymer products	No new means of managing risk are proposed	EVA00154
Medium and long chain alkyl sulfates	Health and Environment	Adhesive and sealants; Anti-freeze and de-icing products; Chemical intermediate; Cleaning and furniture care products; Fabric, textile and leather products not covered by other end uses; Ink, toner and colourant products; Laundry and dishwashing products; Other; Paints and coatings; Personal care products not covered by other end uses; Plastic and polymer products	Recommendation to regulatory body (workers); Information relating to safe introduction and use	EVA00146

Subject of evaluation	Focus	Use	Outcome	Download evaluation
Salicylic acid and its salts	Health and Environment	Adhesive and sealants; Arts, crafts and hobby materials; Automotive care products; Chemicals used in construction not covered by other end uses; Cleaning and furniture care products; Fabric, textile and leather products not covered by other end uses; Laundry and dishwashing products; Other; Paints and coatings; Personal care products - limited environmental release; Personal care products not covered by other end uses; Plastic and polymer products; Water treatment products	Recommendation to regulatory body (public health); Recommendation to regulatory body (workers); Information relating to safe introduction and use	EVA00150
Water-soluble zinc salts	Environment	Fabric, textile and leather products not covered by other end uses; Laundry and dishwashing products; Other; Personal care products not covered by other end uses; Plastic and polymer products	No new means of managing risk are proposed	EVA00105
